

Maykon Meneghel

Senior Full-Stack Engineer — Agribusiness & Financial Markets

Curitiba, Paraná, Brazil · maykonmeneghel@icloud.com · linkedin.com/in/maykonmeneghel · github.com/maykonmeneghel · maykon.meneghel.me

SUMMARY

Senior full-stack engineer with an M.Sc. in Bioengineering and a postgraduate specialization in applied Artificial Intelligence. Twelve years across the whole stack: embedded firmware and PCB design, MQTT and distributed backends in Node.js and NestJS, Docker and Kubernetes on AWS, native iOS in Swift and cross-platform in Flutter, and machine learning in PyTorch and TensorFlow. Twelve native iOS apps shipped, one featured by Apple. COO and co-founder of Tradx, a trading platform built from the strategy graph down to the execution engine. Currently working on Gaussian Splatting and 3D reconstruction. Six peer-reviewed publications.

EXPERIENCE

Senior Developer · Apple Project Eldorado · Apple	Jun 2026 — Present
Technology Advisor · Renault Project GHEL	Jun 2025 — Present
Full Stack Developer · Apple Project Eldorado · Apple	Apr 2024 — May 2026
Tech Lead · Apple Internship Eldorado · Apple	Feb 2023 — Apr 2023
Junior Developer · Apple Project Eldorado · Apple	Oct 2022 — Mar 2024
Trainee · Apple Residency Eldorado · Apple	Apr 2022 — Sep 2022
Software Developer, freelance Self-employed	Jan 2018 — Mar 2022

VENTURES

COO & Co-founder Tradx	Jul 2022 — Present
Administrative Advisor — the family holding RJ Meneghel Holding	Nov 2021 — Dec 2023

RESEARCH

Software Engineer — applied research, AI and embedded health Fundação Araucária	Apr 2017 — Mar 2019
Trainee, Laboratory of Automation and Systems PUC-PR · LAS	Oct 2016 — Dec 2016

EDUCATION

Specialization, Applied Artificial Intelligence PUC-PR	Apr 2019 — Apr 2021
Postgraduate specialization, iOS Development Apple Developer Academy	Feb 2019 — Dec 2020
M.Sc. Bioengineering PUC-PR	Apr 2017 — Apr 2019
B.Eng. Control & Automation Engineering PUC-PR	Jan 2012 — Dec 2016

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, Swift, Dart, Kotlin, C, C++, MATLAB, SQL

Backend & APIs: Node.js, NestJS, Express, REST APIs, WebSockets, Microservices, Distributed systems, System design, Event-driven architecture, API design

Data: MongoDB, PostgreSQL, Redis, BullMQ, Database design, Indexing and query planning, Time series, Data pipelines

Cloud & DevOps: AWS, Amazon S3, CloudFront, Route 53, AWS IoT Core, IAM, EC2, Docker, Kubernetes, Terraform, Infrastructure as Code, GitHub Actions, CI/CD, OIDC, Observability, Scalability, Linux

Mobile & front-end: Swift, SwiftUI, Flutter, Dart, Kotlin, iOS, Android, App Store Connect, Clean Architecture, Astro, HTML, CSS, Accessibility

AI & 3D: Machine learning, PyTorch, TensorFlow, Keras, GANs, LSTM, Deep learning, Feature selection, PCA, XGBoost, Gaussian Splatting, 3DGS, CUDA, Photogrammetry, Computer vision

Embedded & hardware: Embedded C, ESP32, PIC18F4550, ATmega, PWM, ADC, MQTT, IoT, PCB design, EAGLE, Altium, SolidWorks, CAD, 3D printing, Design for manufacturing

Ways of working: Git, Code review, Unit testing, Technical leadership, Mentoring, Product engineering, Backtesting, Paper trading

SELECTED PUBLICATIONS

Instrument for Measuring Factors and/or Natural Elements of the Soil

2016 · Control & Automation Engineering, PUC-PR

A Tool to Select FES Parameters for chronic SCI

2019 · 41st Annual International Conference of the IEEE EMBS · ieeexplore.ieee.org/document/8857421

Indoors Wi-Fi Fall Detector Buckle for the Elderly

2019 · Advanced Materials Proceedings, 4(1), 40–45 · doi:10.5185/amp.2019.1450 · [amp.iaaonline.org/article_16020.html](https://iaaonline.org/article_16020.html)

Application, in silico, of electrical stimuli in a neuro-muscular model compatible with chronic spinal cord injury

2019 · Master's dissertation, PUC-PR

Mathematical modeling of the balance maintenance system using system identification techniques

2019 · System identification / bioengineering

Forecasting financial series with Generative Adversarial Networks

2020 · Applied AI specialization, PUC-PR
